FIRST AUTO RIDE

First President of the United States to ride in an automobile was William McKinley who was taken to a hospital by a motor ambulance after being fatally wounded by an assassin.

Dr. Goodwill to Launch Lecture Series About Russian Influence

Dr. Glen T. Goodwill will return to Torrance next Monday to discuss "Russian Education" in the first of four timely public forum lectures on "Russian Influence—Today and Tomorrow." The talks will be from 7:30 to 9:30 p.m. in Torrance High School Auditorium, 2200 W. Carson St.

The free lectures are open to the public under the sponsorship of the Torrance Evening High School. Tickets are available at the door or by calling the Adult Education Office, Torrance Schools, FA 8-8080.

Superintendent of Schools in Santa Monica, Dr. Goodwill last year visited many Russian schools as one of 71 American educators chosen by the U. S. Department of Education. He described his observations before an overflow crowd at the Torrance Educational Advisory Committee meeting last fall.

Goodwill told the T.E.A.C. that one of the main differences between Russian and American education is in their aims. The Russian system, he said, is designed to create good Soviet citizens who will work for the state and the collective. Americans, he declared, seek to create free, thinking citizens.

The second lecture on April 13 will feature Paul and Marian Miller, former undercover agents who will tell about "We Were Communists for the F.B.I." Their many awards include commendations from President Eisenhower, J. Edgar Hoover, and the California State Legislature.

A former "mystery guest of the Soviets," Robert William Lyon, will talk on "Both Sides of the Iron Curtain" on April 20. He was an eyewitness to

methods used to propagandize and "brainwash" youth at a meeting of the Communist Youth Organization in East Berlin.

Dr. Stanley R. Townsend will take a look at "Germany, the Critical Country" in an April 27 talk. A professor of German at the University of Southern California, Dr. Townsend will discuss the problems of Germany as a link in NATO and as a factor in the current East-West talks.

TO ATTEND INSTITUTE
S. R. Keller, science teacher at North High School has been accepted by the University of California at Berkeley to participate in a summer institute for 100 teachers of science, mathematics and engineering to be conducted June 22 to August 7.
